Consulting Group and managing partner of One Eighty Partners turns current management theory on its head, arguing that organizations that are able to apply brain science to their businesses will overtake the competition and enhance performance at every level. He demonstrates how relying on emotions—rather than logic—leads to better business decisions. This open access book discusses and analyzes competing views and social implications of gestational surrogate. A detailed and moving study, Discounted Life delineates how local labor markets interact with global reproduction industries, how Bangalore’s surrogate mothers make sense of their participation in reproductive assembly line factories, and the remarkable ways in which they negotiate positions of power and voice in the face of conditions. The book presents a global and comparative perspective on the perpetual pendular movement of family law between status and contract. It contributes to the topical academic debate on ‘family law exceptionalism’ by exploring the blurred lines between public law, private law and family law, and sheds light on the many shades of grey that exist. The contributions focus on both substantive and procedural family laws on children and on life-partners, with particular attention to contractual arrangements of family formations and of conflict resolution. The hypothesis underlying all contributions was to treat the trend towards contractualisation of family law as a convergent research outcome resulting from the comparison of national reports was the ambivalent position of family law in legal systems worldwide. That comparison shows that, whereas family law is clearly moving towards contract with regard to old family forms, the contrary is true for new family figures. The movement towards contracts is also found in the more generally worded family law, with focus on the increasing State interventionism in private law relations in general. In sum, the volume shows the high permeability of the demarcation between the State, the family and the market and the incorporation of a categorical approach. This volume is based on the final report and selected national reports on the topic “Contractualisation of Family Law” that were presented at the XIXth International Congress of Comparative Law in Vienna in July 2014. This book addresses the pressing challenges presented by the proliferation of international surrogacy arrangements. The book is divided into three parts. Part 1 contains National Reports on domestic approaches to surrogacy from Argentina, Australia, Belgium, Brazil, China, Czech Republic, France, Germany, Greece, Guatemala, Hungary, India, Ireland, Israel, Mexico, Netherlands, New Zealand, Russia, South Africa, Spain, Spain, United Kingdom, United States and Venezuela. The reports are written by domestic specialists, each demonstrating the difficult and pressing problems arising in many States as a result of international surrogacy arrangements. These National Reports not only provide the backdrop to the authors’ proposed model regulation appearing in Part 3, but serve as a key resource for scrutinising the most providing international perspectives on cross-border surrogacy such as the ‘human rights’ perspective. Part 3 contains a General Report, which consists of an analysis of the National Reports appearing in Part 1, together with a proposed model of regulation of international surrogacy arrangements at the international level written by the two co-editors, Paul Beaumont and Katarina Trimmings. The research undertaken by Katarina Trimmings and Paul Beaumont from 2010 to 2012 was funded by the Nuffield Foundation. transplantation of organs and tissues, blood products or stem-cell and gamete banks are now widely used throughout the world. These techniques improve the health and well-being of some human beings using products or functions that come from the body of others. Growth in demand and advance in the area of human cloning will lead to the development of a new era of global biotechnology. This growing market and demand for human tissues will lead to an increase in the number of people employed in this field, thus creating a new labor market in the global economy.

This book is the result of a collective and multidisciplinary reflection organized by a group of international researchers working in the field of medicine and social sciences. It helps better understand how the emergence of new health industries may contribute to the development of a global medical tourism. It opens new avenues for reflection on technologies that are based on appropriation of parts of the body of others for health purposes, a type of practice that can be metaphorically compared to cannibalism. A re these the first steps towards a proletariat of men- and women-objects considered as a reservoir of products of human origin needed to improve the health or well-being of the better-off? The book raises the issue of the controlled use of medical advances that can sometimes reach the anticipations of dystopian literature and science fiction. Susan Markens takes on some of the hottest issues on the fertility front—surrogate motherhood—in a book that illuminates the culture wars that have erupted over new reproductive technologies in the United States. In an innovative analysis of legislative responses to surrogacy in the new reproductive technologies, Susan Markens explores how discourses about gender, family, race, genetics, rights, and choice have shaped policies aimed at this issue. She examines the views of key players, including legislators, women's organizations, religious groups, the media, and others. In a study that finds surprising ideological agreement among those with opposing views of surrogate motherhood, Markens challenges common assumptions about our responses to reproductive technologies and at the same time offers a fascinating picture of how reproductive politics shape social policy.

Susan Markens presents particularly complex questions for human rights law and theory. This book provides a unique and insightful examination into the underexplored issues of how domestic and international laws interact and the shifting of the laws increased in the use of surrogacy, and international law in the context of the UN Convention on the Rights of the Child. Including a wide range of views from academics and practitioners around the world, the contributors consider what could be done to further protect the rights of all individuals involved in surrogacy arrangements.

In-depth study of the international and domestic law governing surrogacy provides much needed scholarly knowledge of this contemporary phenomenon, along with recommendations for improvement, regulation and reform. The book will be of great importance to human rights and legal scholars, and well as practitioners in this field. This book is published open access under a CC BY 4.0 license. This open access book provides an overview of childlessness throughout Europe. It offers a collection of papers written by leading demographers and sociologists who examine contexts, causes, and consequences of childlessness in all countries within the region. 

The book features data from all over Europe. It specifically highlights patterns of childlessness in Germany, France, the United Kingdom, Finland, Sweden, Austria and Switzerland. A new additional chapter on childlessness in the United States puts the European experience in perspective. This book offers readers such insights as the determinants of lifelong childlessness, whether governments can and should counteract increasing childlessness, how the phenomenon differs across social strata and the role economic uncertainties. In addition, the book also examines life course dynamics and biographical patterns, assisted reproduction as well as the consequences of childlessness. Childlessness has been increasing rapidly in most European countries in recent decades. This book offers readers expert analysis into this issue from leading experts in the field of family behavior. From causes to consequences, it explores the many facets of childlessness throughout Europe to present a comprehensive portrait of this important demographic and sociological trend.

This is an ethnography which probes the intimate experience of gestational surrogate motherhood. Taman shows how surrogates and intended mothers carefully negotiate their cooperative endeavor. New Hampshire juvenile law contains a compilation of New Hampshire statutes essential for anyone who works in family law, or any profession relating to minors. ...and their clinicians to gain access to technologies and networks otherwise closed to them. As surrogates, the women Pande meets get to know and make the most of advanced medical discoveries. They traverse borders and straddle relationships that test the boundaries of race, class, religion, and nationality. Those who focus on the inherent inequalities of the surrogacy industry believe the pragmatic and real world implications of the book is that we bring the law into line with the psychological experience? How can psychoanalysis help us understand irrational actions and bad choices? Our legal system relies on the idea that people act reasonably and of their own free will, yet still commit crimes with a high likelihood of being caught, sign obviously biased contracts, or violate their own moral codes—but would it command internationally an Anne Dailey shows that a psychoanalytic perspective grounded in solid clinical work can bring the law into line with the reality of psychological experience. A proposing contemporary legal debates with fresh insights, this original and powerful critique sheds new light on underlying social importance, including false confessions, sexual consent, threats of violence, and criminal responsibility. Thus, To reveal and spiritual understanding precede. In doing so, keeping to principles, it charts the way out of a confused circle of opinion that is fundamental to the development of the institution of family law. Wertheimer's book focuses on what makes a mutually advantageous and consensual transaction exploitive and analyzes the moral and legal implications of such exploitation. California Family Code (2018 Edition) The Law Library presents the official text of the California Family Code (2018 Edition). Updated as of April 30, 2018. This book contains: - The complete text of the California Family Code (2018 Edition) - A table of contents with the page number of each section - A wealth of information here on the current status questions in the United States, and anyone involved in the surrogacy debate, in the U.S. or otherwise, will find working through this material very worthwhile. -- Canadian Philosophical Review Disturbing motherhood indeed. -- New Scientist "Larry Gostin has put together the definitive collection of essays on one of the most perplexing and titillating topics in contemporary medical ethics. This book includes contributions from some of the leading moral, legal, and social aspects of surrogacy, as well as several critical perspectives on the famous Baby M case – must reading for understanding the surrogate motherhood controversy." -- [Robert M. Veatch "Highly recommended." -- Choice "a valuable resource for those concerned with an exceedingly difficult ethical, legal, and political problem." -- Ethics "There is a wealth of information here on the current status questions in the United States, and anyone involved in the surrogacy debate, in the U.S. or otherwise, will find working through this material very worthwhile." -- Canadian Philosophical Review "an excellent sample of some of the best and most varied thinking so far on the numerous conceptual, moral, social, and policy questions raised by contract motherhood. " -- The Journal of Clinical Ethics "Where pregnancy is concerned, let every pregnancy be for everyone. Let us overthrow, in short, the "family." The surrogacy industry is estimated to be worth over $1 billion a year, and many of its surrogates around the world work in terrible conditions—deception, wage-stealing and medical experimentation. In case law, a court is broadly speaking, a party has to prove four things: first, the existence of a contract; second, that there was an agreement to the contract; third, that there was a delivery of consideration from one party to the other; and, fourth, that the delivery of consideration was within the terms of the contract. How do we bring the law into line with the psychological experience? How can psychoanalysis help us understand irrational actions and bad choices? A mong the first political philosophers to examine this important topic from a non-Machiavellian perspective, Wertheimer writes about ordinary experience in an accessible yet philosophically penetrating way. He considers whether it is justifiable for a party to act on the knowledge that the other party is acting reprehensibly or willfully. The Family in Law challenges the conventional boundaries of family law, providing readers with both a solid foundation and a multi-dimensional perspective to their understanding of the topic. This book is the first to bring together an interdisciplinary collection of essays on surrogacy and egg donation from three socially, legally and culturally distinct countries - India, Israel and Germany. It presents contributions from experts in the field of social and cultural sciences, bioethics, law as well as psychology and provides critical-reflexive comparative analysis of the socio-ethical factors shaping surrogacy and egg donation practices across these three countries. This book highlights the importance of a comparative perspective to 'make sense' of controversies and transitions in this highly contested area of artificial reproductive technologies. It demonstrates how local developments cannot be isolated from global events and vice versa. Therefore, this volume can be used as a standard reference for anyone seeking to understand surrogacy and egg donation from a macro-perspective in the next decade. What is the basis for arguing that a volunteer army exploits citizens who lack civic career opportunities? How do we determine that a doctor who has sex with his patients is exploiting them? In this book, Alan Wertheimer seeks to identify when a transaction or relationship can be properly regarded as exploitive—and not oppressive, manipulative, or morally deficient in some other way—and explores the moral weight of taking unfair advantage. The Family in Law provides a jurisprudential analysis of current family law, connecting doctrinal discourse with sociological, historical and economic analyses of the institution of family. The law's...
