It is a truth universally acknowledged that a single man in possession of a large ego must be in want of a woman to cut him down to size. When journalist Jasmin Field lands the coveted role of Elizabeth Bennet in a one-off fundraising adaptation of Pride and Prejudice she discovers that the play's director, Hollywood heart-throb Harry Noble, is every bit as obnoxious as she could have hoped. Which means a lot of material for her column, and a lot of fun in rehearsals. And then disaster strikes. Jazz's best friend abandons her for a man not worthy to buy her chocolate, her family starts to crumble before her eyes and her award-winning column hits the skids. Worse still, Harry Noble keeps staring at her. As the lights dim, the audience hush and Jazz awaits her cue, she realises two very important things, one: she can't remember her lines, and two: Harry Noble looks amazing in breeches.

Back Cover Summary Hello, I’m Granny Mae. Years ago I had popped a bowl of buttery popcorn to enjoy during a movie I anxiously anticipated watching that evening. Only I did a no-no; that being I put the bowl right next to me in bed. As the movie came on, I promptly fell asleep. Long after the movie had gone off, I woke up. Carefully I moved out of bed so as not to spill the contents of my bowl. I turned on the light to find thousands of ants in the bowl and thousands

more traveling from the popcorn bowl, up the wall, and out my bedroom window. These ants were not everywhere but were only in a thick but orderly line out the window. They looked like tiny construction workers. There are over 14,000 species of ants all over the world. In places like the Amazon and rain forests, more species are discovered daily. In California, where I live, there are 270 species. I am thankful most are not house invaders.

"Cabinet cards were America's main format for photographic portraiture through last three decades of the nineteenth century. Standardized at 6 1/2-by-4 1/4-inches, they were just large enough to reveal extensive detail, leading to the incorporation of elaborate poses, backdrops, and props. Inexpensive and sold by the dozen, they transformed getting one's portrait made from a formal event taken up once or twice in a lifetime into a commonplace practice shared with friends. The cards reinforced middle class Americans' sense of family. They allowed people to show off their material achievements and comforts, and the best cards projected an informal immediacy that encouraged viewers feel emotionally connected with those portrayed. The phenomenon even led sitters to act out before the camera. By making photographs an
easygoing fact of life, the cards set the root for the snapshot and even today's photo sharing. This first-ever in-depth examination of the cabinet card phenomena, assembled by Dr. John Rohrbach, senior curator of photographs at the Amon Carter Museum of American Art, takes the form of a major travelling exhibition and book. The project finds its roots in the work of New York City photography Napoleon Sarony who, starting in the 1860s, made cabinet cards his central tool for marketing the stars of the day. The project reveals how in reaction to the cards' ubiquity, photographers across the United States worked assiduously to set their businesses apart through use of elaborate, often incongruous, backdrops, overlays, and promotional advertising printed on both sides of the cards. It highlights how the cards transformed photography from a formal event into an avenue for personal expression where sitters took full advantage of photography's realism while openly playing with the medium's believability. In short, cabinet cards made photography modern. Essays by Rohrbach, Salvesen, and Pauwels address how cabinet cards reflected and encouraged the wide embrace of photography (Rohrbach), an in-depth essay on California photographer R. J. Arnold, who built a successful small-town business on the cabinet card (Salvesen), and an essay on New York City photographer Napoleon Sarony's innovative efforts using his patented Posing Apparatus

One of the few books of its kind, Acting Up and Getting Down brings together seven African
American literary voices that all have a connection to the Lone Star state. Covering Texas themes and universal ones, this collection showcases often-overlooked literary talents to bring to life inspiring facets of black theatre history. Capturing the intensity of racial violence in Texas, from the Battle of San Jacinto to a World War I-era riot at a Houston training ground, Celeste Bedford Walker's Camp Logan and Ted Shine's Ancestors provide fascinating narratives through the lens of history. Thomas Meloncon's Johnny B. Goode and George Hawkins's Br'er Rabbit explore the cultural legacies of blues music and folktales. Three unflinching dramas (Sterling Houston's Driving Wheel, Eugene Lee's Killingsworth, and Elizabeth Brown-Guillory's When the Ancestors Call) examine homosexuality, a death in the family, and child abuse, bringing to light the private tensions of intersections between the individual and the community. Supplemented by a chronology of black literary milestones as well as a playwrights' canon, Acting Up and Getting Down puts the spotlight on creative achievements that have for too long been excluded from Texas letters. The resulting anthology not only provides new insight into a regional experience but also completes the American story as told onstage.

This volume explores a relational pattern that occurs during one type of speech event — classroom “participant examples.” A participant example describes, as an example of
something, an event that includes at least one person also participating in the conversation. Participants with a role in the example have two relevant identities — as a student or teacher in the classroom, and as a character in whatever event is described as the example. This study reports that in some cases speakers not only discuss, but also act out the roles assigned to them in participant examples. That is, speakers do, with each other, what they are talking about as the content of the example. Participants act as if events described as the example provide a script for their interaction. Drawing on linguistic pragmatics and interactional sociolinguistics, the author describes the linguistic mechanisms that speakers use to act out participant examples. He focuses on the role of deictics, and personal pronouns in particular, in establishing and organizing relationships. The volume also presents a new methodological technique — “deictic mapping” — that can be used to uncover interactional organization in all sorts of speech events. Drawing on the philosophy and sociology of education, the volume discusses the social and educational implications of enacted participant examples. Educational theorists generally find participant examples to be cognitively useful, as devices to help students understand pedagogical content. But enacted participant examples have systematic relational consequences as well. The volume presents and discusses enacted participant examples that have clear, and sometimes undesirable, social consequences. It also discusses how we might adjust educational theory and practice, given the relational implications of classroom participant examples.

Managing the Cycle of Acting-Out Behavior in the Classroom

In 1997 the 50-year-old playwright David Hare decided to visit the 50-year-old state of Israel and write a play - Via Dolorosa - about the conflict. He then chose to become the actor of his own play and set about learning to act the monologue for an uninterrupted 95 minutes on stage. Acting Up is a diary of the ups and downs of that learning curve as well as an insight into what it is actors, directors, producers and stage staff actually do in rehearsals. Hare's hilarious diary of his experience on both sides of the Atlantic tells of his difficulties in coming to terms with his terrifying change of career, but also grapples with more serious questions about the nature of acting itself.

The International Psychoanalytic Congress gathered in 1967 to define the clinical concept of "acting out." Thirty years later, our society, which once labeled those who exhibited excessive
aggression as delinquent, celebrates outrageous public behavior. In Acting Out in Groups, writers, literary theorists, and cultural critics explore therapeutic descriptions of acting out in relation to the conduct condoned, even encouraged, on daytime TV talk shows, at political rallies, and in performance. Through a deconstruction of "acting out," this collection seeks a new, performative style of critical discourse that incorporates the exuberance and intensity of acting out for analytical ends. Topics include the Jenny Jones murder trial; the response of psychoanalysts to the acclaimed documentary Crumb; the place of the Berlin Wall and other national symbols in German life; and the roles of aggression and discipline in childhood development.

The previously untold stories of the life of the leading subject in David France's How To Survive A Plague, Peter Staley, including his continuing activism In 1987, somebody shoved a flyer into the hand of Peter Staley: massive AIDS demonstration, it announced. After four years on Wall Street as a closeted gay man, Staley was familiar with the homophobia common on trading floors. He also knew that he was not beyond the reach of HIV, having recently been diagnosed with AIDS-Related Complex. A week after the protest, Staley found his way to a packed meeting of the AIDS Coalition To Unleash Power—ACT UP—in the West Village. It would prove to be the best decision he ever made. ACT UP would change the course of AIDS, pressuring the National Institutes of Health, the FDA, and three administrations to finally respond with research that ultimately saved millions of lives. Staley, a shrewd strategist with nerves of steel, organized some of the group's most spectacular actions, from shutting down trading on the floor of the New York Stock Exchange to putting a giant condom over the house of Senator Jesse Helms.
Never Silent is the inside story of what brought Staley to ACT UP and the explosive and sometimes painful years to follow—years filled with triumph, humiliation, joy, loss, and persistence. Never Silent is guaranteed to inspire the activist within all of us.

Acting concentrated both the aspirations and anxieties of seventeenth- and eighteenth-century France, where theater was a defining element of urban sociability. In Acting Up: Staging the Subject in Enlightenment France, Jeffrey M. Leichman argues for a new understanding of the relationship between performance and self. Innovative interpretations of La Chaussée, Rousseau, Diderot, Rétif, Beaumarchais, and others demonstrate how the figure of the actor threatened ancien régime moral hierarchies by decoupling affect from emotion. As acting came to be understood as an embodied practice of individual freedom, attempts to alternately perfect and repress it proliferated. Across religious diatribes and sentimental comedies, technical manuals and epistolary novels, Leichman traces the development of early modern acting theories that define the aesthetics, philosophy, and politics of the performed subject. Acting Up weaves together cultural studies, literary analysis, theater history, and performance studies to
establish acting as a key conceptual model for the subject, for the Enlightenment, and for our own time.

As Jay's wife, Ina has it all: the lavish home, the SUV, the soccer games until one day Jay walks out of their marriage, leaving Ina with no one left to trust but herself. How she manages to raise three children, take up her old career, rekindle an old flame, and celebrate her newfound independence is what Acting Out is all about. The Women's Caucus of ACT UP is Acting Up Against Sexism

In March 1987 a radical coalition of queer activists converged on Wall Street: their target, 'Business, Big Business, Business as Usual!!' It was ACT UP's first demonstration. In November 1999 a radical coalition of environmental, labor, anarchist, queer, and human rights activists converged in Seattle: their target was similar, a system of global capitalism. Between 1987 and 1999 a new project in activism had emerged unshackled from past ghosts. Through innovative use of civil rights' era non-violent disobedience, guerrilla theatre, and sophisticated media work, ACT UP has helped transform the world of activism. This anthology offers a history of ACT UP for a new generation of activists and students. It is divided into five sections which address the new social movements, the use of street theater to reclaim public space, queer and sexual politics, new media/electronic civil disobedience, and race and community building. Contributions range across a diverse spectrum: The Northwest Bronx Community and Clergy Coalition, Jubilee 2000, Students for an Undemocratic Society, Fed Up Queers, Gender Identity Center of Colorado, Triangle Foundation, Jacks of Color, National Coalition for Sexual Freedom, Lower East Side Collective, Community Labor Coalition, Church of Stop-Shopping, Indy Media Collective, Black Radical Congress, The Theater of the Oppressed Laboratory, A delante Street Theater; HealthGAP, Housing Works, SexPanic! and, of course, ACT UP itself.
