A merican Government The presidential historian charts the progression of A merican power from George Washington to
George W. Bush, revealing the exercise of power through the office as it has developed into an "imperial" seat of
authority, in an updated edition of the classic history. Reprint.

Forty Centuries of Wage and Price Controls In this Second Edition of this radical social history of A merica from
Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an
Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for
under-graduate and post-graduate students and scholars in A merican social history and A merican studies, as well
as the general reader.

A merican Government 2e Emphasizing the relevance of politics and government in everyday life, We the People
provides tools to help students think critically about A merican government and politics. The Sixth Edition has
been carefully updated to reflect most recent developments, including the ongoing conflict in Iraq and the 2006
midterm elections. Complemented by a rich package of multimedia tools for instructors and students, including a
new video-clip DVD, We the People is now more pedagogically effective than ever.

Lebanon Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of
separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of
Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it
was previously known, was constructed by A merican statesman Alexander Hamilton, and was intended to catalyse the
ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation’s finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

American Government American Government does more than any other text to get students to think analytically about American politics and government. The successful Five Principles of Politics framework integrated throughout the full and core versions helps students make sense of the material they encounter in the course, and the political information they encounter in their daily lives. In this Tenth Edition, new Analyzing the Evidence units in each chapter use bold graphics to show how data and basic methodology illuminate key political phenomena, and a new online reader offers students easy access to readings from over 100 recent articles and foundational works cited in the text. This Tenth Core Edition does not includes the policy chapters of the Tenth Full Edition.

Congress A fresh, accessible perspective on the fundamentals

American Government

The Basics of American Government Today, war is more complicated than it has ever been. When considering military strategy, a commander must be aware of several theaters of war. There's ground strength, air power, naval combat and even cyber warfare. In the late 19th century, however, the true military might of a nation rested primarily
on the strength of its navy. In 1890, United States Navy Captain Alfred Thayer Mahan published a book titled "The Influence of Sea Power Upon History." The monumental text addressed the importance of both military and commercial fleets in the success of a nation in war and peacetime. Mahan begins with a discussion of the elements he considers to be the key to a nation's success on the seas. He theorizes that a ground force could not sustain the pressure of a naval blockade. Mahan then applies his principles to wars of the past. He analyzes the use of a navy in various engagements and considers the resulting influence on the outcome of the wars. The book was readily accepted by commanders and tacticians all over the world and his principles and theories were utilized throughout the 20th century. His arguments, along with technological advances, were influential in the strengthening of the United States Navy. Presently, Mahan's work is considered the most important work on naval strategy in history.

Studyguide for American Government American Government, Brief Tenth Edition, is the only brief text that offers an analytical approach, comprehensive coverage of the core concepts and major topics of American politics, and lots of pedagogical help for students.

Our American Government Connects current political science to the core topics in American politics.

American Government: Power and Purpose This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In The Paranoid Style in American Politics, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as "Free Silver and the Mind of 'Coin' Harvey" and "What Happened to the Antitrust Movement?" The Paranoid Style in American Politics remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States.

American Government and Politics in the Information Age

Principles and Practice of American Politics: Classic and Contemporary Readings, 5th Edition Thoroughly updated based on recent scholarship and current events, American Government: Power and Purpose remains the gold standard for teaching a political scientific perspective on American government. Thorough analysis of the 2018 midterm elections and the first years of the Trump presidency make this revision more current and authoritative than ever.
Presidential Government

Outlines and Highlights for American Government

American Government This is a print on demand edition of a hard to find publication. Contents: (1) Recent Developments: Parliamentary Elections 2009; Lebanon and Israel; Cluster-Bomb Coordinates; Arrests of Alleged Israeli Intelligence Agents; Hariri Tribunal; (2) U.S. Policy Toward Lebanon; (3) Political Profile: Demography; Civil War, Occupation, and Taif Reform; Syrian and Israeli Incursions; Taif Agreement; Syrian Withdrawal and Parliamentary Elections of 2005; U.N. Democracy in America - Volume 2 The Basics of American Government is a collaborative effort among eight current and one former faculty members in the Departments of Political Science and Criminal Justice at University of North Georgia. The purpose of this book is to offer a no-frills, low-cost, yet comprehensive overview of the American political system for students taking introductory courses in American national government. Furthermore, the work combines the best aspects of both a traditional textbook and a reader in that most chapters offer a piece of original scholarship as a case study to bolster or reinforce the material presented in the chapter. In addition, many chapters present a civic engagement-type exercise and discussion questions intended to challenge, engage, and foster student participation in the political system. The authors undertook this project for several reasons, most notably the high costs of textbooks for students and the lack of college-level scholarship found in most American Government texts. This 375-page, peer-reviewed, edited book that combines traditional material with original scholarship will cost students $27.99, well below market standards. All of the authors are experienced classroom instructors, subject matter experts, and published researchers in the field of American politics.

The Imperial Presidency The Mises Institute is thrilled to bring back this popular guide to ridiculous economic policy from the ancient world to modern times. This outstanding history illustrates the utter futility of fighting the market process through legislation. It always uses despotic measures to yield socially catastrophic results. It covers the ancient world, the Roman Republic and Empire, Medieval Europe, the first centuries of the U.S. and Canada, the French Revolution, the 19th century, World Wars I and II, the Nazis, the Soviets, postwar rent control, and the 1970s. It also includes a very helpful conclusion spelling out the theory of wage and price controls. This book is a treasure, and super entertaining!

American Government Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college
level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

The Influence of Sea Power Upon History, 1660-1783 “Keep your government hands off my Medicare!” Such comments spotlight a central question animating Suzanne Mettler’s provocative and timely book: why are many Americans unaware of government social benefits and so hostile to them in principle, even though they receive them? The Obama administration has been roundly criticized for its inability to convey how much it has accomplished for ordinary citizens. Mettler argues that this difficulty is not merely a failure of communication; rather it is endemic to the formidable presence of the “submerged state.” In recent decades, federal policymakers have increasingly shunned the outright disbursing of benefits to individuals and families and favored instead less visible and more indirect incentives and subsidies, from tax breaks to payments for services to private companies. These submerged policies, Mettler shows, obscure the role of government and exaggerate that of the market. As a result, citizens are unaware not only of the benefits they receive, but of the massive advantages given to powerful interests, such as insurance companies and the financial industry. Neither do they realize that the policies of the submerged state shower their largest benefits on the most affluent Americans, exacerbating inequality. Mettler analyzes three Obama reforms—student aid, tax relief, and health care—to reveal the submerged state and its consequences, demonstrating how structurally difficult it is to enact policy reforms and even to obtain public recognition for achieving them. She concludes with recommendations for reform to help make hidden policies more visible and governance more comprehensible to all Americans. The sad truth is that many American citizens do not know how major social programs work—or even whether they benefit from them. Suzanne Mettler’s important new book will bring government policies back to the surface and encourage citizens to reclaim their voice in the political process.

The Submerged State

We the People Thoroughly updated based on recent scholarship and current events, American Government: Power and Purpose remains the gold standard for teaching a political scientific perspective on American government. Thorough analysis of the 2018 midterm elections and the first years of the Trump presidency make this revision more current and authoritative than ever.

A merican Political Ideas Viewed from the Standpoint of Universal History Combining timeless readings with cutting-edge, current selections, Kernell and Smith bring judicious editing and important context for students learning the ropes of American government. This collection effectively examines the strategic behavior of key players in American politics, showing that political actors, though motivated by their own interests, are governed by the Constitution, the law, and institutional rules, as well as influenced by the strategies of others. The 5th edition features 17 new readings, including 5 pieces written specifically for this volume. True to form, each and every selection is artfully framed by Kernell and SmithÆs headnotes, providing an invaluable grounding for todayÆs students.

The Federalist Papers

A merican Government

The New Freedom The Committee on House Administration is pleased to present this revised book on our United States Government. This publication continues to be a popular introductory guide for American citizens and those of other countries who seek a greater understanding of our heritage of democracy. The question-and-answer format covers a broad range of topics dealing with the legislative, executive, and judicial branches of our Government as well as the electoral process and the role of political parties.--Foreword.

The Paranoid Style in American Politics A reader to accompany Ginsberg and Wagner Hill's Congress: The First Branch This reader offers an examination of such topics as congressional elections, the internal structure of
Congress, the legislative process, Congress and the president, and Congress and the courts. It is designed to accompany the course text Congress: The First Branch, which introduces Congress as America’s most democratic institution. Based more on the history of the branch than on its modern applications, this volume is essential for students utilizing the main text and studying Congress at large.

The Freedom to Read Noted political scientist Benjamin Ginsberg has written an essential text for courses on the United States presidency. An invaluable resource, Ginsberg’s comprehensive analysis emphasizes the historical, constitutional, and legal dimensions of presidential power. He explores the history and essential aspects of the office, the president’s relationship to the rest of the executive branch and to a subordinated Congress, and the evolution of the American president from policy executor to policy maker. Compelling photo essays delve into topics of special interest, including First Spouses, Presidential Eligibility, and Congressional Investigations of the White House.

American Government

A People’s History of the United States Based on the Full Edition of American Government: Power and Purpose, but with a simpler framework, the Fourteenth Brief Edition combines authoritative, concise coverage of the central topics in American politics with smart pedagogical features designed to get students thinking analytically. The Fourteenth Edition has been thoroughly updated through the 2016 elections, and now brings an analytical perspective to current policy issues in new “Policy Principle” sections.
