Cooperative Problem Solving Activities for Social Studies, Grades 6-12

Activities for cooperative learning

Designed to provide cooperative learning opportunities for either small groups or pairs to help students become "third-story thinkers." The authors use their considerable teaching experience to present more than 40 problem-solving activities that are ready for immediate use in the social studies classroom. This updated edition of Catch Them Thinking in Social Studies demonstrates how to use collaborative learning strategies to reach teaching goals in five areas of social studies instruction: geography, politics, economics, culture, and history. Each activity includes background information, strategies to fully engage students in meaning-making. Cooperative Problem-Solving Activities for Social Studies, Grades 6-12 offers lessons and descriptions of consequent pedagogical approaches which can be used both to teach the skills and to use them to enhance key learning.

Give your students the opportunity to think, discover, and learn together in social studies! Teamwork helps students strengthen individual retention, improve performance, and promote meaning-making in the classroom. To give adolescent minds practice in critical thinking, the authors present a wide range of cooperative problem-solving activities. They also focus on the social studies classroom. Group Solutions

Active learning is now a form of learning that accompanies the knowledge evolution that challenges the learner to promote it, but also encourages him to investigate and become emotionally involved in the task. The great key to obtaining this behavior successfully depends, therefore, on the subject's involvement and ability to undertake, so that active learning becomes emotional entrepreneurial learning that generates new ideas and new forms of knowledge. From memorization, we move on to inquiry, from questioning to constructive participation, from hypostasis to problem-solving, from generalization to critical thinking. When we look at this book, we see real examples, concrete, and senses, from the most important act of human nature: learning!
The fun, flexible activities in Cooperative Learning Activities use real-life situations and develop problem-solving skills as students work in groups. Collaborative Problem Solving Activities introduce, reinforce, and develop team problem-solving skills.
