Critical Issues in Environmental Taxation

Most OECD countries have introduced various ecotaxes, but only a few are implementing comprehensive green tax reforms. This report reviews the types.

The Political Economy of Environmentally Related Taxes

Carbon pricing very effectively encourages the shift of production and consumption choices towards low and zero carbon options.

Environmental Taxes in OECD Countries

This annual publication gives a conceptual framework to define which government receipts should be regarded as taxes. It presents a unique set of detailed and internationally comparable tax data in a common format for all OECD countries from 1965 onwards.

Environmental taxes in OECD countries

This publication provides an overview of the tax measures introduced during the COVID-19 crisis across almost 70 jurisdictions, including all OECD and G20 countries and 21 additional members of the OECD/G20 Inclusive Framework on Base Erosion and Profit Shifting. It examines how tax policy responses have varied across countries and evolved over the last year.
