There Are No Guilty People

Criminal justice is centrally concerned with what people deserve—with the rights a defendant can properly claim when charged with a crime, with the punishment a judge should impose for wrongdoing, and with the scope of discretion officials may exercise when enforcing the law. Dimensions of Justice: Ethical Issues in the Administration of Criminal Law is the only textbook that addresses these questions along with clearly presented learning objectives, create a strong foundation in key concepts, pertinent vocabulary, and critical-thinking and reasoning skills. Readers are introduced to moral reasoning and the underpinnings of philosophical approaches to justice, including readings from critical philosophers such as Aristotle, Augustine, Locke, Kant, and Rawls. Accessible but rigorous, Dimensions of Justice: Ethical Issues in the Administration of Criminal Law provides a unique and innovative approach that challenges students to develop a new analytical framework for thinking about the criminal justice system.

The Destroyed World and the Guilty Self

The Forged Coupon is a novella in two parts by Leo Tolstoy. Though he first conceived of the story in the late 1890s, he did not begin writing it until 1902. After struggling for several years, he finally completed the story in 1904; however, it was not published until some of Tolstoy's shorter works were collected and anthologized after his death in 1910. Contents: The forged coupon -- After the dance -- Alyosha the pot -- My dream -- There are no guilty people -- The young Tsar.

How to Say No Without Feeling Guilty

There are many different types of crime and degrees of guilt, and the defense must navigate through a complex criminal justice system that is not always equipped to recognize nuances. In Guilty People, law professor and longtime criminal defense attorney Abbe Smith gives us a truthful and honest look at guilty individuals on trial. Each chapter tells compelling stories about real cases she handled; some of her clients were guilty of only petty crimes and misdemeanors, while others committed offenses as grave as rape and murder. In the process, she answers the question that every defense attorney is routinely asked: How can you represent these people? Smith's answer also tackles seldom-addressed but equally important questions such as: Who are the people filling our nation's jails and prisons? Are they truly criminals or simply society's disadvantaged and dispossessed as they are usually portrayed? How did they get caught up in the system? And what happens to them there? This book challenges the assumption that the guilty are a separate species, unworthy of humane treatment. It is dedicated to guilty people—every single one of us.

Also how the rest of her life is governed by her actions and those of the murderer and her marriage to a French solicitor.

From desire for self-vindication, free from fear of an emancipated people, free from that envy and hatred which the oppressed feel for their oppressors, I am in the best possible position to see the truth and to tell it. Perhaps that is why Providence placed me in such a position. I will do my best to turn it to account.

Innocent until proven guilty or guilty until proven innocent? D. Corbett Etridge cannot vote, own a firearm, or hold public office: he is a convicted felon. But did he actually commit the crime? This true-life legal drama, former magistrate D. Corbett Etridge chronicles the events of the summer of 2005 and the ensuing criminal trial that led to his felony conviction and the end of his criminal justice career. He then asks you to assess the evidence and make your own reasonable decision about whether he is, indeed, innocent or guilty as charged. Etridge gives personal insight into his career and background to illustrate that guilt in a complex society is not always a matter of black and white. He also challenges many beliefs regarding the modern criminal justice system in the United States, effectively drawing a line between the theoretical and the actual. Ultimately, Guilty Until Proven Innocent is an intriguing literary criminal trial in which you decide the outcome. Ladies and gentlemen of the jury, what is your verdict?

There Are No Guilty People

"A brilliant book that masterfully debunks the conventional wisdom that those who are charged with crimes in our criminal justice system, even when they are acquitted at trial, are almost certainly guilty. It is a data-driven tour de force." —Richard E. Lee, author of Police Interrogation and A merican Justice "Givelber and Farrell make a persuasive case that most jury acquittals are based on evidence not emotion, and that acquittals should be taken to mean what they say: that the defendant is Not Guilty." —Samuel Gross, co-author of A Modern Approach to Evidence: Text, Problems, Transcripts, and Cases Ascs of scores of death row inmates are exonerated by DNA evidence and innocence commissions are set up across the country, conviction of the innocent has become a well-recognized problem. But our justice system makes both kinds of errors—we acquit the guilty and convict the innocent—and exploring the reasons why people are acquitted can help us to evaluate the efficiency and fairness of our criminal justice system. Not Guilty provides a sustained examination and analysis of the factors that lead jurors to find defendants "not guilty," as well as the connection between those factors and the possibility of factual innocence, examining why some criminal trials result in not guilty verdicts and what those verdicts suggest about the accuracy of our criminal process.

Guilty People

David Levine and Matthew Brooker explore cultural and political trends organized around the conviction that the world we live in is a dangerous place to be, that it is dominated by hate and destruction, and that in it our primary task is to survive by carrying on a life-long struggle against hostile forces. Their method involves the analysis of public fantasies to reveal their hidden meanings. The central fantasy explored is the fantasy of a destroyed world, which appears most commonly in the form of post-apocalyptic and dystopian narratives. Their special concern in the book is with defenses against the painful consequences of the dominance of this fantasy in the inner world, especially defenses involving the use of guilt to assure that something can be done to repair the destroyed world. Topics explored include: the formation of internal fortresses and their projection into the world outside, forms of guilt including bystander guilt and survivor guilt, the loss of and search for home, and manic forms of reparation.

When I Say No, I Feel Guilty

A "hilarious and heartbreaking" (G Piazza) and unfailingly honest memoir about one young woman's terrible and life-changing decisions while hoping—and sometimes failing—to find herself, in the style of Never Have I Ever and A Guiltless Life. Jenny Schwartz tells the story of her early twenties through answering all the Internet's favorite method of self-knowledge: the quiz. Part memoir, part VERY long personality test, CHOOSE YOUR OWN DISASTER is a manifesto about the millennial experience and modern feminism and how the easy advice of "you can be anything you want" is actually pretty fucking difficult when there are so many possible versions of yourself it seems like you could be. Dana has no idea who she is, but at least she knows she's a Carrie, a Ravenclaw, a Rapids, or an emo kid, a Twitter addict, and a millennial just trying her best. "This long-form personality quiz manages to combine humor with unfailing honesty as one young woman tries to find herself amid the many, many, many choices that your twenties have to offer."— Bustle

The Complete Works of L eo Tolstoy

The Forged Coupon and Other Stories is a classic collection of short stories by the great Russian author Leo Tolstoy. This venerable Russian literature collection contains the following titles: THE FORGED COUPON, AFTER THE DANCE, A LYOSHA THE POT, MY DREAM, THERE ARE NO GUITY PEOPLE, AND THE YOUNG TSAR. In an age of materialism like our own the phenomenon of spiritual power is as significant and inspiring as it is rare. No longer associated with a "divine right" of kings, it has survived the downfall of feudal and theocratic systems as a mystic personal emanation in place of a coercive weapon of statecraft. Freed from its ancient shackles of dogma and despotism it eludes analysis. We know not how to gauge its effect on others, nor even upon ourselves. Like the wind, it permeates the atmosphere we breathe, and baffles the keenest intellect with its irresistible and compelling force. Tolstoy's criterion, which is the dead weight of materialism is impotent to suppress, is revealed in the lives and writings of men of the most diverse creeds and nationalities. A part from those who, like Buddha and M ahatma, have been raised to the height of demi-gods by worshipping millions, there are names which leap inevitably to the mind such names as Savonarola, Luther, Calvin, Rousseau—which stand for types and exemplars of spiritual aspiration. To this high priesthood of the quick among the dead, who can doubt that time will admit Leo Tolstoy—a genius whose greatness has been obscured from us rather than enhanced by his duality: a realist who strove to demolish the mysticism of Christianity, and became himself a mystic in the contemplation of nature: a man of ardent temperament and robust physique, keenly susceptible to human passions and desires, who battled with himself from early manhood until the spirit, gathering strength with years, inexorably subdued the flesh
